Data/Services: MySQL, PostgreSQL, Firebase, Pusher, WebSockets, MQTT, SMTP, Twilio, Google Maps **Tools:** Git, GitHub, Docker, Postman, VS Code, cPanel, PuTTY, FileZilla, XAMPP
Specialties: WordPress, payment gateways, multi-vendor systems, push notifications, web hosting, deployment, role-based admin panels

PROFESSIONAL EXPERIENCE

Dcodax Private Limited, Islamabad Sep 2022 – Present
Full-time | On-site

Senior Laravel Developer

- Lead backend and frontend delivery with Laravel, PHP, JavaScript, MySQL, HTML, CSS, and Bootstrap across production client platforms.
- Build REST APIs, multi-vendor workflows, payment integrations, notifications, dashboards, and secure third-party service integrations.
- Own deployment, hosting configuration, maintenance, debugging, performance improvements, and ongoing product enhancements.

Fiverr Jan 2022 – Present
Part-time | Remote

Freelance Web Developer / PHP Laravel Developer

- Deliver Laravel and PHP web solutions for international clients, from requirements and customization through testing, deployment, and support.
- Develop APIs, database features, responsive interfaces, integrations, bug fixes, and WordPress/Laravel enhancements.

National University of Modern Languages (NUML), Islamabad Oct 2021 – Mar 2022
6 months

Software Engineer / PHP Developer

- Developed and maintained PHP-based software features, database workflows, and responsive web interfaces in a collaborative environment.
- Supported testing, debugging, technical documentation, and iterative delivery while completing the Software Engineering degree.

EDUCATION & ACHIEVEMENTS

B.S. Software Engineering, National University of Modern Languages (NUML) Mar 2018 – Mar 2022

GPA: 3.66/4.00, Islamabad

Awards: NUML Coding Competition (Sep 2021) | Open House Competition (Dec 2021) | Best Performance Award (Aug 2023)

SELECTED PROJECTS

- Flow & Glow:** Built a Next.js wellness dashboard and TypeScript/Fastify API for cycle predictions, health logs, AI chat, notifications, audit history, and support operations.
Tags: Next.js, Fastify, PostgreSQL, Prisma, TypeScript, Admin Panel, Firebase, Docker
- Get Out There:** Developed a Laravel marketplace for activities, tours, rides, vehicles, and e-commerce with verification, bookings, subscriptions, messaging, and calendar synchronization.
Tags: Laravel, PHP, MySQL, Stripe, Sanctum, Excel Import, Firebase, Admin Panel
- YCAB:** Implemented a modular mobility backend for ride-hailing, rental, ambulance, parcel, and freight services with pricing, bidding, wallets, SOS, and fleet workflows.
Tags: Laravel, PHP, MySQL, Sanctum, Firebase, Stripe, Google Maps, Admin Panel
- Ice Butcher:** Created a role-based operations dashboard for sales, orders, production, warehouse, design, driver routes, internal messaging, and Stripe payment callbacks.
Tags: Laravel, PHP, MySQL, Stripe, Sanctum, Pusher, Firebase, Admin Panel
- SDRD:** Customized a multi-module marketplace for food, grocery, e-commerce, pharmacy, parcel, and rental services with vendor, customer, delivery, wallet, POS, and reporting workflows.
Tags: Laravel, PHP, MySQL, Passport, Firebase, WebSockets, Payment APIs, Admin Panel
- F1 Racing:** Built a digital magazine CMS with issue/page builders, media management, map-coordinate links, mobile APIs, permissions, localization, and real-time messaging.
Tags: Laravel, PHP, MySQL, Sanctum, Spatie Media, Permissions, OneSignal, MQTT
- RydStop:** Delivered ride-hailing and dispatch functionality covering onboarding, verification, live matching, scheduled rides, fare estimates, QR payments, wallets, notifications, and complaints.
Tags: Laravel, PHP, MySQL, Sanctum, Firebase, Pusher, Google Maps, Admin Panel
- Riderem:** Developed a multi-vendor food delivery platform with restaurant onboarding, menus, zone delivery, order tracking, payments, loyalty, refunds, subscriptions, and vendor dashboards.
Tags: Laravel, PHP, MySQL, Passport, Stripe, Payment APIs, Vendor Panel, Admin Panel
